

ERP SOFTWARE DEVELOPER

ABOUT US:

Smartrend Supply Ltd., established in 2004, is a leading manufacturer of customer-specific components and assemblies for transportation and general industrial applications. In 2018, First Light Safety Products was created as a subsidiary of Smartrend Supply Ltd. First Light, an innovative and progressive organization, incorporates LED technology into essential safety indicators to improve the visibility of school buses, thus increasing the safety of drivers and passengers of buses and other motor vehicles. Both organizations share a 29,000 sq ft, state of the art manufacturing facility.

SUMMARY:

The **ERP Software Developer** is a methodical, detail oriented, and creative professional that will be responsible for creating, modifying and maintaining internal ERP/MRP systems to enable our production and manufacturing operation. The successful candidate will work with administration, engineering, and manufacturing teams to gather requirements for the internal systems that require development.

DETAILED DUTIES AND RESPONSIBILITIES:

- Modify and develop specified software to manage and guide production and manufacturing activities.
- Monitor and maintain systems to maximize system availability.
- Coordinate the development and maintenance of in-house internal tools, databases, etc. to manage and track all testing related activities and data.
- Interface with other staff to gather requirements for internal systems.
- Participate in internal process, procedure, and workflow discussions and identify opportunities to improve effectiveness and efficiency of tools.
- Other software and IT related activities as directed and required.

KNOWLEDGE, SKILLS, AND ABILITIES REQUIRED:

- Education: BS Degree in Computer Engineering/Science or Computer Engineering Technology Certificate.
- Minimum 5 years of related software development experience.
- Familiarity with Linux software stacks including Python, PostgreSQL, MySQL, Virtualization, Docker, Networking Infrastructure is an asset.
- Familiarity with ERP/MRP systems is an asset.
- Familiarity with electronics and mechanical manufacturing is an asset.
- Computer knowledge and skills with Microsoft Word, Excel, PowerPoint, and Solid Works or similar CAD software.
- Possess creativity for product development.
- Ability to prioritize and manage multiple projects simultaneously.
- Project management skills is an asset.
- An energetic, diligent work ethic and able to work with little supervision.
- Strives in pressure situations.
