## QUALITY MANAGER

### WHO WE ARE

As one of Manitoba's fastest growing companies, Smartrend Manufacturing Group (SMG), Inc. through our various divisions, is increasing safety in the school bus industry and reducing emissions in the electric vehicle charge systems arena. We work on exciting, patented, innovative technology that impacts our environment. What has remained constant throughout this compelling history of growth is our dedication to our customers, our team members, and to the values on which we built SMG:

- **People** – our team is what makes us special
- **Passion** – from our hearts and minds, demonstrated through our actions
- **Priority** – we put the customer first, everyday, in everything we do
- **Partnership** – with each other, our customers, and our suppliers

We offer a competitive benefits package in an environment that is supportive, respectful, and fun! Join an innovative, growing, and diverse organization where your voice matters.

### THE POSITION

Quality is at the root of everything we do at SMG. The **Quality Manager** is a dynamic strategic thinker and a do-er, developing and improving policies, procedures, and processes for the company. The successful candidate thrives in a fast-paced environment where they may be faced with multiple competing priorities. Customer facing, the Quality Manager has excellent customer service, communication, and interpersonal skills. With a mechanical background, this individual is a builder who gets satisfaction from establishing processes to guide the quality activities of the company, while promoting a culture of quality and continuous improvement from the ground up.

### HOW YOU WILL BE MAKING AN IMPACT

- ✓ Bring together the quality activities of all manufacturing segments for overall planning and priorities in line with the objectives of the company.
- ✓ Review and resolve quality control problems/concerns with the quality team and others including vendors, customers, quality control personnel, and any personnel related to production.
- ✓ Lead team to improve quality control and quality assurance procedures including documentation, reporting, and performance metrics.
- ✓ Coordinate and lead audits with various OEM customers.
- ✓ Develop and fortify existing quality inspection requirements based on specific part standards, as defined by internal engineering and customer criteria.
- ✓ Ensure collaboration between quality team and other departments throughout the organization.
- ✓ Enhance and manage internal/external corrective and preventive action processes.
- ✓ Working with internal teams to enact vendor quality improvement initiatives.
- ✓ Coordinates and assists with vendor inspections and product inspections, as necessary.
- ✓ Coordinate between quality teams in Canada and Overseas.
